

The Madakkal Ridges

BY WECOMMUNITIES

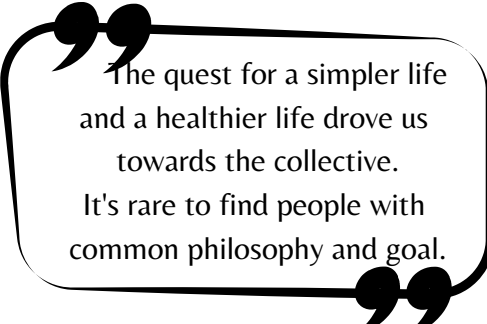

Being in a place surrounded by good folks. Living a calmer, simpler and healthier life puts me in a much better headspace

-Akash Gehani
Tamarind Valley Collective

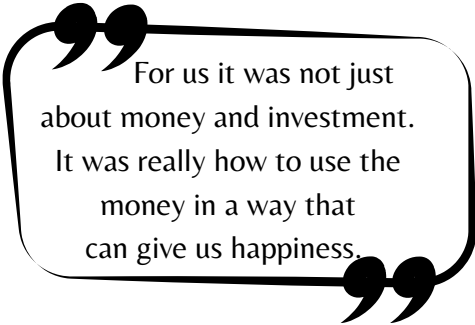

Why Farming Collective?

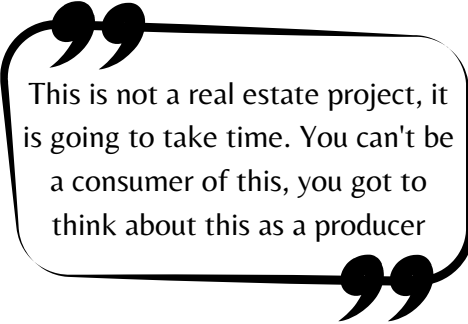

The quest for a simpler life and a healthier life drove us towards the collective. It's rare to find people with common philosophy and goal.

-Sandeep & Supriya
Tamarind Valley Collective

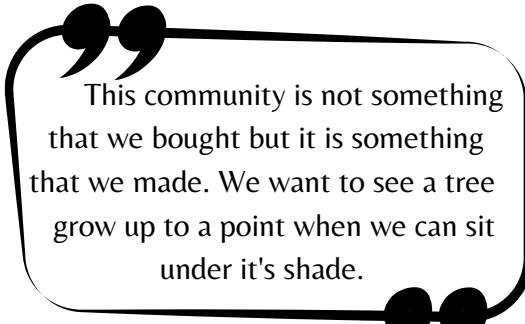

For us it was not just about money and investment. It was really how to use the money in a way that can give us happiness.

-Hitesh & Megha
Rose Valley Collective

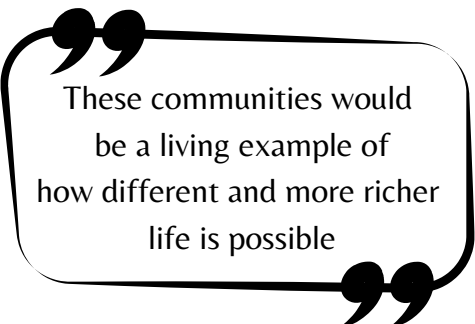

This is not a real estate project, it is going to take time. You can't be a consumer of this, you got to think about this as a producer

-Rajeev Prakash
Tamarind Valley Collective

This community is not something that we bought but it is something that we made. We want to see a tree grow up to a point when we can sit under it's shade.

-Zainab & Kiran
Tamarind Valley Collective

These communities would be a living example of how different and more richer life is possible

-Sandeep Bogra
Rose Valley Collective

Our Gallery

Food

Our experience & expertise is in designing, building and managing farms based on agroforestry and natural farming methods.

We grow safe, chemical-free food, and work on creating a sufficient, diverse and rich ecosystem. Our model is collaborative in nature and offers multiple opportunities for our members to contribute to.

Community

You become part of a vibrant community of individuals who share a passion for farming, sustainability, and a healthier lifestyle.

We facilitate the creation of an aligned & engaged community that fosters health, wellness and learning.

Better Living

Our collectives offer more than just a farm. They comprise of houses built with natural materials, local design aesthetics and processes which minimise energy consumption and reduce the overall carbon footprint.

We work on positive outcomes for the land, water and other elements of the farm, thus fostering a better, richer and healthier life.

THE MADAKKAL RIDGES

A 70+ acres farming collective, centred around the concept of better living, being developed as a mix of agroforestry, food forest and sustainable housing, located about 65 kms from Bengaluru.

Option 1 - The Crest

- 1 Acre (43,000+ Sqft) Units
- 700 Sqft customised House
- Farm Infra & Common amenities

Price starts at
1.12 Crores*

Option 2 - The Vault

- 1.5 Acre (65,000+ Sqft) Units
- 1100 Sqft customised House
- Farm Infra & Common amenities

Price starts at
1.68 Crore*

*Registrations and Stamp duty extra as applicable

The farm will have vegetables fruits and other indigenous tress, food forests and water management structures designed using agroforestry principles. Energy will be designed for a minimal, optimal need and met through a blend of grid and solar power.

Individual land portions are pooled as part of the farming collective, jointly planned, executed and managed as a single large farm, with farm returns accruing from the 4th year.

Collective model
