

In order to offer our residents a completely natural and private alternative for a safe stay with the SG's standard assurance, a jungle trail has been planned.

Since all of our projects are state-of-the-art and fully furnished with a variety of amenities, "A jungle trail" will be constructed mostly using natural materials, and we promise to provide the best results at a reasonable price.

*To maintain consistency and a boutique resort aesthetic,
all villas will be built in a "A" shape.
It validates the resort's name,*

All of the villas will be combined, and we'll jointly market it as a boutique resort that will function as an addition to SG European Village & Resort. Since our efforts cannot be financially justified with the current offering, we have strictly limited this offer to residents of SG Residents. We also didn't want this project to be viewed as an investment option or for anyone else to benefit from it.

- Total Number of units in project 13 +/-1/2
- All construction will be "A" shaped.
- Land area of 200 square meters (1 nali) 2152 sq feet with each unit.
- Only steel & wooden structures made from accessible materials are permitted.
- Visitors staying there will be allowed to access any of our any property freely.
- A government water and power connection is accessible.
- Walking distance from the European Village main gate: 4-5 minutes.
- There is a road for small cars that leads to the land, but we won't build any more because we don't want to turn it into a concrete and commercial area.
- Keeping a raw plot for more than two years is strictly prohibited.
- A lovely plot of land covered in Silver Oak trees.
- This offer is exclusively available to members.
- A good natural water source that is on land.
- Option to choose the layout from 4 different sizes.
